# **SITUATION SUMMARY**

## **Castella Water Tank Rupture, Shasta and Siskiyou Counties**

- A Cal OES Inland Emergency Services Coordinator (ESC) was notified by a Cal OES Assistant Fire Chief of a water situation in Castella, south of Dunsmuir on the Shasta/Siskiyou County line. Per the Cal OES Assistant Fire Chief, the domestic water infrastructure ruptured on the evening of 10/08/15, causing the water system to completely drain.
- The Cal OES Inland ESC spoke with the Dunsmuir Fire Chief who was on-scene at the Castella water tank. The Chief advised Castella's water tank infrastructure ruptured and lost 300,000 gallons of water over a 6 hour period.
- The Cal OES Inland ESC advised the following as of 2000 hours on 10/09/15:
  - A boiled water requirement is being issued for the community of Castella.
  - Shasta County sent people door to door to notify residents.
  - Shasta County wants to assure the water has no contaminants, so they are going to test the water on Monday morning. It takes 24 hours to get the test results and they advise they should have the test results by Tuesday morning.

## **City of Yreka Water Main Break, Siskiyou County**

- Per Cal OES IDO: A water supply line suffered a break on 10/09/15. The city is currently under a boil water order. Per State Water Board Division of Drinking Water, samples will be taken today, 10/10/15, for testing. Fairchild Medical Center is currently operating from potable water trucks.

## **POTUS visits to Northern and Southern California**

- President Obama traveled to San Francisco 10/09/15 for Democratic National Committee events and will depart 10/10/15 traveling to Southern California for a series of fundraisers in Los Angeles County. President Obama is scheduled to depart Los Angeles County this evening.

## **Fleet Week, San Francisco, San Francisco County**

- Fleet Week activities run through October 12th. Activities include the Blue Angels performing, parade of ships on the Bay and ship tours.

## **Cal OES Activation Status**

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

## **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

## **Weather of Concern**

- An approaching strong cold front will bring very gusty southwest winds to portions of Modoc County. Gusts to 45 mph are expected and this combined with low humidities will result in critical fire weather conditions.

## **Active Weather Warnings, Watches and Advisories by County:**

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

#### **Eureka Weather:**

Another weak front will bring a period of light rain to the redwood coast this afternoon and evening particularly across Del Norte County. A warming and drying trend can be expected Sunday through much of the work week.

#### **Medford Weather:**

A cold front is approaching this morning. This front is much stronger than yesterday`s front, and the main concern this time is the strong, gusty south to southwest winds we will get over the Shasta valley, mountains, and east side.

#### **Reno Weather:**

Well above average high temperatures will continue for the next week, with near record temperatures on Saturday for the lower valleys of western Nevada. Winds will increase on Saturday as low pressure moves through the Pacific Northwest. High pressure strengthens again Sunday through much of next week for a return to lighter winds.

#### **San Francisco Weather:**

Dry weather will continue into early next week along with near normal to above normal temperatures. A low pressure system, currently located over the Baja peninsula, will move west out over the pacific waters and may be a factor in our weather by midweek.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Plenty of sunshine and above normal temperatures for Northern California through mid-next week can be expected. There is potential for high clouds over the weekend across the north with some breezy wind but temperatures will remain just above normal.

#### **Hanford Weather:**

An upper level ridge of high pressure will continue over central California during the next few days and bring dry weather with a day to day warming trend through Saturday. Slight cooling will arrive on Sunday however temperatures are still expected to remain steadily above normal through Saturday. Upper level disturbance will bring a chance of showers to parts of central California Wednesday through Friday. The disturbance will be east of the area on Saturday with dry conditions returning.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

High pressure will gradually weaken this weekend and into early next week. Afternoon temperatures will exhibit a gradual cooling trend although remaining above normal into early next week. An approaching low pressure system will bring the possibility of precipitation the middle of next week with the best chances for rain on Thursday.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

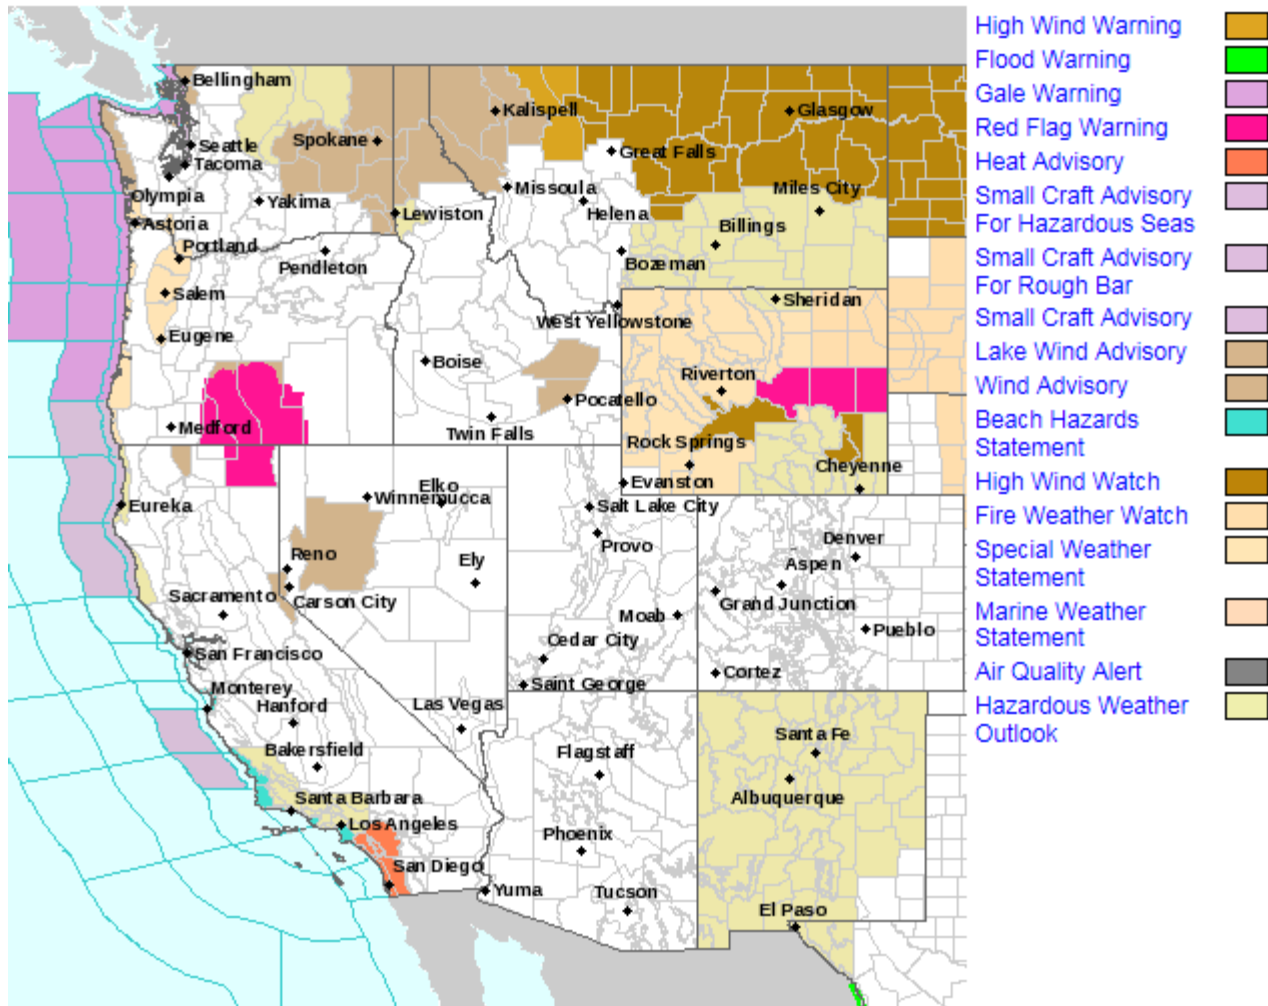

A slow cooling trend will develop near the coast and spread inland through next week. This will take high temperatures from well above average to a little above average by the end of next week. A low pressure system from the southwest will move inland across central and southern California the middle part of next week bringing a slight chance of showers and thunderstorms mainly to the mountains and deserts.

#### **Southeast California Weather:**

A low pressure system across northern Mexico will continue drifting westward leaving the southwestern states under a tranquil weather regime through early next week. Well above normal temperatures will persist through at least the middle of next week with many lower desert locations seeing highs approaching or reaching 100 degrees. Thereafter a low pressure system will bring slightly cooler temperatures increased cloudiness and a slight chance of rain to the region.

# CAL OES 2014 DROUGHT

## Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.
